

Hooper Riding Club Presents a Dressage Show Preparatory Clinic

Hooper Equestrian Center, 1008 Severson Road, Belleville, WI

Sunday, April 1st, Start time: 9:00am

Closing Date: Monday, March 26th at 5:00pm

The summer show season is near! Get some practice and feedback before your first show at this 'Ride Your Test' Clinic! Whether you are brand new to showing, have taken some time off from showing, or just want to get some feedback before starting the season, this clinic will give you the perfect opportunity to hone your riding skills before the show season begins. Practice riding your test and then our judge/clinician, Nicole Trapp, will score your test and give you verbal feedback on what to work on to help improve your score! Nicole Trapp is a USDF 'L' dressage judge. She has shown horses up to Forth Level dressage and is a USDF bronze medalist. She has been training for almost 20 years and taken many breeds of horses to regional awards and USDF Horse of the Year breed awards all on self-trained horses.

Because of the nature of this clinic, no ribbons will be awarded. You may sign up for the same test more than once. There will also be a lecture over the lunch break by Nicole.

Limited space available so register early!

Make Checks Payable to Wisconsin Union

Please mail or drop of check (with rider name in the memo line), a copy of negative coggins, and proof of current vaccinations to HEC/Show, 1008 Severson Road, Belleville WI 53508

Rules and Notes

- 1) All riders must wear ASTM/SEI approved helmets and boots or shoes with heels at all times while mounted.
- 2) Tests will take place in a small (20 x 40m) dressage arena
- 3) Copy of 2011 Negative Coggins and **proof of current vaccinations*** must accompany your check and original coggins must be shown upon arrival at HEC.

*With the recommendation of our veterinarians, we will be requiring proof of the Flu/Rhino vaccine within the horse show year as a reassurance that each individual is involved in a routine health care plan.

We trust that all horse owners will be vigilant in protecting their own animals by reducing the risk of exposure. We hope that everyone will be following strict quarantine procedures in their own facilities, keeping up to date on all vaccinations, periodically checking temperatures, and most importantly, by not knowingly traveling with infected animals.
